

CALL FOR PROPOSALS – EAC/S28/2016

Call for proposals for a *Framework Partnership Agreement* with a European policy network in the field of education of children and young people with a migrant background

1. INTRODUCTION – BACKGROUND

The Work Programme for Erasmus+ for 2017 C(2016)5571¹ envisages the support of European network(s) for policy development and implementation in the field of school education.

The purpose of this call is to strengthen cross-European co-operation between public authorities, such as Ministries and government agencies, and associations of stakeholders and practitioners, higher education institutions, research bodies, foundations and other organisations promoting the integration of children and young people with migration background in education and helping to improve their educational outcomes and overall integration in society.

The call aims at supporting one European policy network to raise awareness, analyse and develop policy approaches, and promote good practices and innovative initiatives in the field of education of children and young people with a migrant background.

Policy context

Education is a powerful tool for the integration of third country nationals, as already acknowledged in a number of EU documents, notably Council Conclusions² on the integration of third country nationals (June 2014) and the Action Plan for the integration of third country nationals (2016)³. The recent increase in migration flows into the European Union makes it urgent for European education systems to adapt and welcome diversity, and it places a huge demand on schools and teachers.

Data shows that many children and young people with a migrant background fare worse in school compared to their native peers. They are more at risk of poverty or social exclusion. Policies need to support cross-sectorial cooperation bringing together relevant government departments, educational authorities, social and health services as well as asylum and immigration services. They need to address social disadvantages of many children and young people with migration background as well as to strengthen anti-discrimination measures, increase the access to high quality early childhood

education and care, improve the permeability of educational pathways within the education system and help reduce segregation.

European cooperation in the area of migration and education has identified a wide range of measures suitable to support integration and deal with diversity in the education systems. This includes the better preparation of teachers and school staff, the need to provide target linguistic support, taking into account each child's individual linguistic repertoire, to better involve parents and local communities in the work of schools.

Helping and preparing teachers to deal with diversity in the classroom and contribute to creating inclusive learning environments plays a crucial role. According to TALIS 2013⁴, the OECD's Teaching and Learning International Survey, teaching in a multicultural or multilingual setting is among the areas in which teachers report the highest need for professional development to tackle current deficits. The teaching profession should also reflect the diversity of society. However, this is not the case in most European country, as shown by a study published by the European Commission in the beginning of 2016, on the diversity within the teaching profession with particular focus on migrant and/ or minority background.⁵

While there is a need to develop evidence-based and integrated policies to address the needs of learners with migrant background in general, attention has recently focussed on the situation on newly arrived migrant children and young people. For them, the rapid acquisition of basic skills, or recognition of existing skills, is the foundation for further learning and the gateway to employment and social inclusion. Learning rapidly the language(s) of the host country is also crucial to succeed in their integration process.

The 2015 Joint Report of the Council and the Commission on the implementation of the strategic framework for European cooperation in education and training (ET 2020)⁶ highlights the need to invest in the education of young people with a migrant background and especially in the better integration of newly arrived migrants. The Paris Declaration of Education Ministers of 17 March 2015⁷ called for actions at all levels to reinforce the role of education in promoting citizenship and the common values of freedom, tolerance and non-discrimination, strengthening social cohesion and helping young people become responsible, open-minded and active members of our diverse and inclusive society.

The European Commission supported a range of projects in the area of migration and education under different EU funding schemes such as the Life Long Learning Programme (2007 – 2013), Erasmus+ (2014 – 2020), and HORIZON 2020. From 2011 to 2014 the Commission helped to set up the policy network [SIRIUS](http://www.sirius-migrationeducation.org/)⁸. The network aimed to bring together different partners from the EU and key stakeholders, foster knowledge sharing and transfer of good practice and influence the creation and implementation of policies. Other interesting examples include initiatives such as the EDINA project⁹, Accept Pluralism¹⁰ or Gemeinsam interkulturelle Stärken leben¹¹.

In this context, it is the intention of the European Commission to support the development of one European policy network in the area of education and integration of children and young people with a migrant background (comprising both newly arrived and less recent migrants), representing a wide range of education stakeholders, including policy makers, education practitioners, and researchers as well as migrant and civil society associations/ representatives.

2. OBJECTIVES

The overall objective of this call is to support an EU-wide network of relevant organisations (policymakers, practitioners, researchers and stakeholders, including with migrant background) to promote co-operation, policy development and implementation at different governance levels and support the integration of children and young people with migration background in school education.

The network will build on existing work developed at European level, especially initiatives and projects supported by the European Union's education programmes.

The scope of its work is defined by the political priorities of EU Member States as outlined in the 2015 Joint Report, the Paris declaration of 17 March 2015 and related documents, taking also into account, where relevant, participating countries' national priorities, appropriate research, and developments within other international organisations.

The specific objectives include the following:

1. **Create and develop a sustainable and inclusive network** to facilitate dialogue and co-operation among experts from policy, research and practice. The network should serve evidence-informed policy-making and promote collaboration amongst relevant stakeholders at different levels, including other networks and projects funded through EU programmes and /or having an European cooperation dimension;
2. **Analyse and co-create knowledge** on the main challenges and policy approaches for ensuring inclusive education environments for children and young people with a migrant background, allowing them to succeed both in school and life and achieve their potential;
3. **Identify, share and promote good policy practice** and stimulate innovation in policy development and policy experimentation at different governance levels. There should be specific focus on the involvement of national, regional and local stakeholders;
4. **Contribute to content development for European Commission's dissemination tools**, for example the School Education Gateway¹², an online platform for school education supported by the European Commission and especially the Toolkit for Schools¹³. Contribute to follow-up initiatives in implementing the Migration Agenda.
5. **Disseminate results and recommendations** within and beyond the network, and inform EU-level debate, including co-operation under Education and Training

¹² <http://www.schooleducationgateway.eu/en/pub/index.htm>

¹³ <http://www.schooleducationgateway.eu/en/pub/resources/toolkitsforschools.htm>

2020. Target audiences should include policy-makers at different governance levels, practitioners and researchers across Europe.

The network should represent a broad geographic scope and a balance of different education systems, and a variety of backgrounds of participating institutions and associations, from policy, practice and research. Focus is on the general education of children and young people (0-18 years), an exchange with other education sectors and especially non-formal education providers could be an asset, but should not constitute the core activities under this partnership agreement.

3. FRAMEWORK PARTNERSHIP AGREEMENT

The Commission intends to support the EU policy network through a four-year framework partnership agreement (FPA), for a period of 48 months starting with the date of signature, subject to the funds being made available by the budgetary authority, on an annual basis.

The FPA will set out the conditions governing annual grants for an action. The FPA defines the respective roles and responsibilities of the Commission and the selected organisation in implementing the partnership. It presents the common objectives agreed by the organisation and the Commission; the type of activities envisaged; the procedure to conclude a specific agreement for an annual grant for an action as well as the general rights and obligations of each party under the specific grant agreements. The FPA does not constitute an obligation for the Commission to conclude a specific agreement for an annual grant for an action.

As part of the application for the FPA, the applicant is required to submit an overall work programme for its entire duration¹⁴. This shall comprise an overall description of activities and outputs for the entire period of the FPA, and an indicative description of how these will be divided into annual work plans. The applicant is also required to submit an indicative budget corresponding to the entire duration of the FPA¹⁵. Together with the other information provided, it will form the basis for awarding the FPA.

4. AWARD OF SPECIFIC GRANT AGREEMENTS

In addition and in order to ensure a timely start of the activities planned under the FPA, a detailed work plan and a corresponding budget¹⁶ are requested for the first year, which will be subject to a specific grant agreement concluded after signature of the FPA. This detailed work plan for the first year will demonstrate how the applicant intends to implement the work programme of the FPA; it will be evaluated in more detail only after the framework partnership has been awarded.

For years 2, 3 and 4, subject to the funds being available, the Commission will annually invite the organisation with whom the FPA has been signed to provide a detailed work plan for the following year of operation and a corresponding budget, in order to conclude a specific agreement for a grant for an action for the following year of operation. The detailed work programmes for years 2, 3 and 4 will be assessed against the award criteria indicated in this call (section 11).

13. FINANCIAL PROVISIONS

13.1. General Principles

a) Non-cumulative award³¹

An action may only receive one grant from the EU budget.

In no circumstances shall the same costs be financed twice by the Union budget. To ensure this, applicants shall indicate the sources and amounts of Union funding received or applied for the same action or part of the action or for its functioning during the same financial year as well as any other funding received or applied for the same action.³²

b) Non-retroactivity³³

No grant may be awarded retrospectively for actions already completed.

Action grants:

A grant may be awarded for an action which has already begun only where the applicant can demonstrate the need to start the action before the grant agreement is signed or the grant decision is notified.

In such cases, costs eligible for financing may not have been incurred prior to the date of submission of the grant application

c) Co-financing³⁴

Co-financing means that the resources which are necessary to carry out the action or the work programme may not be entirely provided by the EU grant.

Co-financing of the action or of the work programme may take the form of:

- the beneficiary's own resources,
- income generated by the action or work programme,
- financial contributions from third parties.

d) Balanced budget³⁵

The estimated budget of the action or work programme is to be attached to the application form. It must have revenue and expenditure in balance.

The budget must be drawn up in euros.

Applicants which foresee that costs will not be incurred in euros, are invited to use the exchange rate published on the Infor-euro website available at http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm.

e) Implementation contracts/subcontracting³⁶

³¹ Art. 129 FR

³² Art. 196.4 RAP.

³³ Art. 130 FR

³⁴ Art. 125 FR, 183 RAP.

³⁵ Art. 196.2 RAP

³⁶ Art. 137 FR, 209 RAP

Where the implementation of the action or the work programme requires the award of procurement contracts (implementation contracts), the beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate), avoiding conflicts of interests and retain the documentation for the event of an audit.

In the event of procurement exceeding € 60 000, the beneficiary must abide by special rules as referred in the FPA annexed to the call. Moreover the beneficiary is expected to clearly document the tendering procedure and retain the documentation for the event of an audit.

Entities acting in their capacity of contracting authorities in the meaning of Directive 2014/24/EU³⁷ or contracting entities in the meaning of Directive 2004/25/EU³⁸ shall abide by the applicable national public procurement rules.

Sub-contracting, i.e. the externalisation of specific tasks or activities which form part of the action/work programme as described in the proposal must satisfy the conditions applicable to any implementation contract (as specified above) and in addition to them the following conditions:

- it may only cover the implementation of a limited part of the action;
- it must be justified having regard to the nature of the action and what is necessary for its implementation;
- it must be clearly stated in the proposal.

f) Financial support to third parties³⁹.

The applications may not envisage provision of financial support to third parties.

13.2. Funding forms⁴⁰

Mixed financing grants are calculated on the basis of a detailed estimated budget indicating clearly the costs that are eligible for EU funding. The grant amount may neither exceed the eligible costs nor the amount requested. Amounts are indicated in euros.

➤ **Maximum amount requested**

The EU grant is limited to a maximum co-funding rate of 75% of **eligible costs**.

Consequently, part of the total eligible expenses entered in the estimative budget must be financed from sources other than the EU grant (see section 13.1c).

➤ **Eligible costs**⁴¹

Eligible costs are costs actually incurred by the beneficiary of a grant which meet all the following criteria:

- ✓ they are incurred during the duration of the action or of the work programme, with the exception of costs relating to final reports and audit certificates;

The period of eligibility of costs will start as specified in the grant agreement or the grant decision.

³⁷ Directive 2014/24/EU on public procurement and repealing Directive 2004/18/EC.

³⁸ Directive 2004/25/EU on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC

³⁹ Art. 137 FR, 210 RAP.

⁴⁰ Art. 123 FR, 181 RAP.

⁴¹ Art. 126 FR

If a beneficiary can demonstrate the need to start the action before the agreement is signed, expenditure may be authorised before the grant is awarded. Under no circumstances can the eligibility period start before the date of submission of the grant application (see section 13.1b).

- ✓ they are indicated in the estimated budget of the action or work programme;
- ✓ they are necessary for the implementation of the action or of the work programme which is the subject of the grant;
- ✓ they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;
- ✓ they comply with the requirements of applicable tax and social legislation;
- ✓ they are reasonable, justified, and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

The beneficiary's internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the action/project with the corresponding accounting statements and supporting documents.

The same criteria apply to the affiliated entities.

Eligible direct costs

The eligible direct costs for the action/ work programme are those costs which, **with due regard for the conditions of eligibility set out above**, are identifiable as specific costs directly linked to the performance of the action or the work programme and which can therefore be booked to it directly, such as :

- the costs of personnel working under an employment contract with the applicant or equivalent appointing act and assigned to the action, comprising actual salaries plus social security contributions and other statutory costs included in the remuneration, provided that these costs are in line with the applicant's usual policy on remuneration. Those costs may include additional remuneration, including payments on the basis of supplementary contracts regardless of their nature, provided that it is paid in a consistent manner whenever the same kind of work or expertise is required and independently from the source of funding used;

- the costs of natural persons working under a contract with the beneficiary other than an employment contract or who are seconded to the beneficiary by a third party against payment may also be included under such personnel costs, provided that the following conditions are fulfilled:

i) the natural person works under the instructions of the beneficiary and, unless otherwise agreed with the beneficiary, in the beneficiary's premises;

ii) the result of the work belongs to the beneficiary; and

iii) the costs are not significantly different from the costs of staff performing similar tasks under an employment contract with the beneficiary

- costs of the personnel of national administrations to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken;

- subsistence allowances (for meetings, including kick-off meetings where applicable, conferences etc.) provided that these costs are in line with the beneficiary's usual practices;

- costs of travel (for meetings, including kick-off meetings where applicable, conferences etc.), provided that these costs are in line with the beneficiary's usual practices on travel;
- depreciation cost of equipment (new or second-hand): only the portion of the equipment's depreciation corresponding to the duration of the action/project and the rate of actual use for the purposes of the action may be taken into account by the Commission;
- costs of consumables and supplies, provided that they are identifiable and assigned to the action/project;
- costs entailed by implementation contracts awarded by the beneficiaries for the purposes of carrying out the action/project, provided that the conditions laid down in the grant agreement or grant decision are met;
- costs arising directly from requirements linked to the implementation of the action/project (dissemination of information, specific evaluation of the action, translations, reproduction);
- costs relating to a pre-financing guarantee lodged by the beneficiary of the grant, where required;
- costs relating to external audits where required in support of the requests for payments.
- duties, taxes and charges paid by the partner, notably value added tax (VAT), provided that they are included in eligible direct costs, and unless specified otherwise in the Special Conditions or in the Specific Agreement.

Eligible indirect costs (overheads)

- a flat-rate amount of 7 % of the total eligible direct costs of the action, is eligible under indirect costs, representing the beneficiary's general administrative costs which can be regarded as chargeable to the action/project.

Indirect costs may not include costs entered under another budget heading.

Applicants's attention is drawn to the fact that in the case of organisations receiving an operating grant, indirect costs are not eligible under specific actions.

➤ **Ineligible costs**

- return on capital;
- debt and debt service charges;
- provisions for losses or debts;
- interest owed;
- doubtful debts;
- exchange losses;
- costs of transfers from the Commission charged by the bank of a beneficiary;
- costs declared by a beneficiary and covered by another action receiving a European Union grant. In particular, indirect costs shall not be eligible under a grant for an action awarded to a beneficiary who already receives an operating grant financed from the Union budget during the period in question;
- contributions in kind;
- excessive or reckless expenditure;

- Deductible VAT;
- others (in accordance with the relevant legal base).

➤ Calculation of the final grant amount

The final amount of the grant to be awarded to the beneficiary is established after completion of the action or work programme, upon approval of the request for payment containing the following documents⁴²:

- a final report providing details of the implementation and results of the action/work programme ;
- the final financial statement of costs actually incurred,

EU grants may not have the purpose or effect of producing a profit within the framework of the action or the work programme of the beneficiary. **Profit shall be defined as a surplus of the receipts over the eligible costs incurred by the beneficiary**, when the request is made for payment of the balance. In this respect, where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the beneficiary to carry out the action or work programme.

13.3. Payment arrangements⁴³

A pre-financing payment⁴⁴ corresponding to 70 % of the grant amount will be transferred to the beneficiary within 30⁴⁵ days either of the date when the last of the two parties signs the agreement, or of the notification of the grant decision, provided all requested guarantees have been received. This pre-financing payment may be reduced, and/or an interim payment may be introduced, subject to a risk analysis.

The Commission will establish the amount of the final payment to be made to the beneficiary on the basis of the calculation of the final grant amount (see section 13.2 above). If the total of earlier payments is higher than the final grant amount, the beneficiary will be required to reimburse the amount paid in excess by the Commission through a recovery order⁴⁶.

13.4. Pre-financing guarantee⁴⁷

Subject to a risk analysis, the authorising officer may, on a case by case basis, require a pre-financing guarantee for up to the same amount as the pre-financing in order to limit the financial risks linked to the pre-financing payment.

The financial guarantee, in euro, shall be provided by an approved bank or financial institution established in one of the Member State of the European Union. When the beneficiary is established in a third country, the authorising officer responsible may agree that a bank or financial institution established in that third country may provide the guarantee if he considers that the bank or financial institution offers equivalent security and characteristics as those offered by a bank or financial institution established in a Member State. Amounts blocked in bank accounts shall not be accepted as financial guarantees.

⁴⁷ Art. 134 FR, 206 RAP

The guarantee may be replaced by a joint and several guarantee by a third party or by a joint guarantee of the beneficiaries of an action who are parties to the same grant agreement.

The guarantee shall be released as the pre-financing is gradually cleared against interim payments or payments of balances to the beneficiary, in accordance with the conditions laid down in the grant agreement.
